

MAINTENANCE COMMITTEE MEETING MINUTES

Location: Transocean Companies

Date: 15 July 2010

Call to Order / Introductions:

The Group was welcomed by the Vice Chairman, Ian Murdoch. A building security and safety briefing was given by Felipe (Transocean). The Vice-Chairman recognized Transocean for hosting the meeting and thanked all members for their attendance. A short personal introduction was then given by each attendee followed by a review of the agenda by the Vice Chairman.

IADC Antitrust Policy and Guidelines and committee Mission Statement

John Pertgen reviewed the IADC Antitrust Policy and Guidelines and the Mission Statement with the attendees.

Review of action items: There were no outstanding action items.

Regulatory Review:

John Pertgen provided a brief overview of the following issues being tracked by IADC:

- USCG- CO2 Fixed systems update: Lockout valves and olfactory devices
- USCG- Certificate of Financial Responsibility certificates- liability update for MODUs
- EPA- PCB removal for vessels recycled or sold internationally (EPA/MARAD MOU)
- EPA- final rule regarding bunker delivery notes and fuel samples retained

-STCW 2009 Convention and Code adopted at Conference of Countries. Effective 1 January 2012

Re-emphasized the availability of both the IADC Federal Summary and International Standards Activities reports, which IADC publishes semi-annually.
