IADC-Australasia Chapter Safety Award 2016

AGM Perth, Australia – 16th May 2017

The Award program is open to all Onshore and Offshore members with a winner designated for each area. 9 of 13 IADC Australasia chapter member companies participated, resulting in an uptake rate of 75% which was lower than previous years, and we are encouraging more participation this year. The safety statistics for the participating companies were supplied quarterly and submitted in accordance with **2016-ISP IADC Official Rules and Guidelines**. This year IADC ISP Program was able to support the Chapter's Award Program by supplying the data and winner notification. This has enabled the award program to continue at a significantly reduced cost whilst maintaining the confidentiality requirements.

Some of the combined onshore and offshore key statistics were:

3,035,015 man hours of operation; 3 Medical Treatment cases; 0 Lost Time Incidents; 5 Restricted Work/Transfer Cases. LTIFR = 0; DARTFR = 1.647 and TRIFR = 2.6359; 0 Fatalities.

The 2016 winners: Onshore – Schlumberger Land Rigs and Offshore – Noblecorp (both pictured below).
