JIP TITLE

DRILLING SYSTEMS AUTOMATION ROADMAP (AND DSABOK)

JIP UPDATE

Updated website DSA-Roadmap and DSABOK (see below); added privacy statements / terms of use plus modified to make functional on smart phones, iPads, etc.

Collected final funding for JIP 2 budget.

Identified and arranged professional technical editor with high reputation in drilling publications.

Working on updated report, estimate end 1st Q 2019 for public release.

Developed DSABOK (Drilling Systems Automation Body Of Knowledge) website as spin off from DSA-R to have distinction between current knowledge and future projections (requested by industry): site intended to be a one stop portal to link to multiple sources of information on DSA.
