## **IADC WELL CONTROL ACCREDITATION PROGRAM**

### **BULLETIN 04-03**

April 2004

---

This bulletin is issued to all schools that are accredited or are now in the process of completing an Application for Accreditation.

#### **WELLCAP UNDERBALANCED PROGRAM CHANGES**

The IADC Underbalanced Operations Committee has approved two changes to the WellCAP Underbalanced program, as noted below:

1. UBO WellCAP will no longer require a supervisory conventional well control certificate as a prerequisite. This change was made to avoid unnecessary training costs for service company personnel not normally involved in conventional rig operations or well control.
2. Additionally, the Committee modified a requirement that all WellCAP UBO instructors have completed a WellCAP supervisory UB course by early 2004. That date has been extended to **31 December 2005** to encourage additional providers to seek WellCAP UBO accreditation.
