IADC WELL CONTROL ACCREDITATION PROGRAM

BULLETIN 08-01

April 2008

This bulletin is issued to all training providers that are accredited or are now in the process of completing an Application for WellCAP Accreditation.

WELLCAP INTRODUCTORY COURSE REQUIREMENT CHANGED

The IADC Well Control Committee has voted to remove the requirement for WellCAP Introductory course retraining every five years. Effective immediately, WellCAP-accredited training providers will no longer be required to provide the WellCAP Introductory course for employees who have already completed this training.

Accredited training providers that choose to conduct WellCAP Introductory course retraining may provide retraining at a frequency that fits the needs of their rig personnel. Issuance of Certificates of Completion for the Introductory course retraining is optional. If a training provider chooses to issue the Certificate of Completion, student records must be retained by the provider and reported to IADC within 90 days of completion of training.

This bulletin supersedes all versions of WCT-1 and all WellCAP Bulletins dated prior to December 2008.

For more information, contact IADC or consult the WellCAP web site at <http://www.iadc.org/wellcap.htm>.
