## **IADC WELL CONTROL ACCREDITATION PROGRAM**

### **BULLETIN 08-03**

December 2008

This bulletin is issued to all training providers that are accredited or are now in the process of completing an Application for WellCAP Accreditation.

---

#### **WELLCAP UNDERBALANCED INSTRUCTOR REQUIREMENTS**

The IADC Underbalanced Operations & Managed Pressure Drilling Committee has elected to extend the waiver issued in August 2007 as Bulletin 07-01. This is only a temporary change to the WellCAP Underbalanced (UB) program instructor requirements.

Previously, the Committee had adopted a requirement stating that instructors applying for approval to teach WellCAP UB curriculum must have completed a WellCAP supervisory UB course. That requirement was originally waived until 31 December 2008. This waiver will now remain in effect until **31 December 2009**.

In the event a candidate for instructor approval has a valid Underbalanced WellCAP certificate, the requirement that it be from a different training provider will also be waived until that date.

This Bulletin does not affect qualification requirements for instructors seeking approval to teach other types of WellCAP curriculum.

This bulletin supersedes all versions of WCT-1 and all WellCAP Bulletins dated prior to December 2008.
